Subj: ADULT PREVENTIVE AND CHRONIC CARE FLOWSHEET FOR  
IMPLEMENTATION OF PUT PREVENTION INTO PRACTICE (PPIP)

Ref: (a) Assistant Secretary of Defense (Health Affairs) memo  
Dated 20 Mar 98

Encl: (1) DD Form 2766, Mar 1998

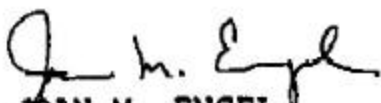

1. Reference (a) is the policy memorandum to implement "Put Prevention into Practice" (PPIP) in the Military Healthcare System. Effective immediately, enclosure (1) may be used as a preventive care flow sheet in all Navy medical records for adults. This form will be mandatory in April 1999. PPIP is a national campaign developed by the Office for Disease Prevention and Health Promotion, Department of Health and Human Services, to improve the delivery of clinical preventive services which includes immunizations, screenings and health counseling. Monitoring and evaluation of Navy Model Site programs in Naval Hospitals, Jacksonville, Camp LeJeune, and Bremerton began 1 April 98. Commands will develop strategies and systems to successfully implement PPIP at each site by April 1999. In the meantime, if commands are ready to begin tracking preventive services in this prescribed manner, you may reproduce enclosure (1) and begin using it in records, or at least orienting your primary care staff to it.

2. Place this form on the top left side of the first cover in the record. It will replace the Summary of Care NAVMED 6150/20 (Rev. 1-94), Immunization Record for Adults, SF 601, and any local flowsheets used to track clinical preventive services. Existing forms are to remain until completely consolidated onto the Adult Preventive and Chronic Care Flowsheet. Please provide your command point of contact to Lieutenant Commander Bob Rahal, MSC, at the below number or email address to receive an attachment via email of enclosure (1).

Subj: ADULT PREVENTIVE AND CHRONIC CARE FLOWSHEET FOR  
IMPLEMENTATION OF PUT PREVENTION INTO PRACTICE (PPIP)

3. The Preventive Health Care System (PHCS), an automated program currently being alpha-tested, will incorporate this paper form. A Flowsheet for Childhood Preventive Care and Childhood Immunizations are being separately developed. These tracking tools are all part of the PPIP campaign, which is the prevention breakthrough that Health Affairs has implemented in Fiscal Year 98.

4. Comments and recommendations regarding the use and efficacy of the new form may be forwarded to the Navy Environmental Health Center (Attn: Ms. Nancy Von Tersch, Navy PPIP Coordinator), 2510 Walmer Avenue, Norfolk, VA 23513-2617. Points of contact at this Bureau are Captain Candace Gortney, NC,USN, at (202) 762-3497, DSN: 762-3497, email [cmgortney@us.med.navy.mil](mailto:cmgortney@us.med.navy.mil) and LCDR Bob Rahal at (202) 762-3152, DSN: 762-3152, email [rarahal@us.med.navy.mil](mailto:rarahal@us.med.navy.mil).
